

Yucaipa Challenge 2017

East permanent side **Sunday** course log

Total length: 6837'

PDGA rules apply

ALL ASPHALT ROADS and LAKES OB

Concrete picnic pads safe

1. 360' – Long right position. Road and beyond, left and behind, OB
2. 645' – Par 4 - Tee from other side of the bridge on the packed dirt road to basket in same position as Saturday. Road and beyond and right side line and beyond OB. Only safe if come to rest on the grass strip over the canal. Re-tee if don't make it over the line along the brush/trees at any time.
3. 600' – Par 4 – Temp basket same side of road as teepad down the dirt/grass strip. Right of marked line down right side and road and left – OB. Walk back up to #4 regular teepad.
4. 300' – From the teepad to a temp basket set in narrow area leading to the restroom structure. Asphalt parking lot and road and left OB.
5. 250' - Grass tee behind restroom structure down to original basket position.
6. 356' - Tee from the dock to the right of the regular teepad to original position over the fence. Right of the vertical line on the wall below the basket is OB. Re-tee. Disc on the wall between the fence and the canal right of the line is OB. On the wall behind the fence but left of the line ok.
7. 192' – Basket on the hillside, slight right off the teepad. Road and beyond OB. Rollbacks onto the dirt path passing through the teepad are in play.
8. 390' - Tee from picnic pad back from original teepad, up open fairway to the long #8 position. Road and beyond OB. Mando tree and drop zone protecting teepad #9.
9. 400' - To #10 island basket over the road.
10. 570' – Par 4 - Tee from marked box at far edge of parking lot across from #10 basket. Target is distant, over the island and guard rail to what is normally Yucaipa #17. Road and beyond left is OB as is asphalt around the island. Island ok. There is a concrete drainage ditch at the left side of the basket "green" with a marked line over to the asphalt circle. That ditch protects #19 tee and anything on the 19 tee side is OB. Essentially, throw straight up the long grass fairway and run straight at the basket over or from the island.
11. 309' – **From original #12 tee** to longer, left position. Road and beyond OB.
12. 333' – **From original #13 tee.** Long, past Saturday position to within a few feet of the canal fence. Road and beyond and over that fence and canal, OB.
13. 306' – **From original #14 tee** to a temp basket **on** the log wall, 30' past Saturday position.
14. 276' – **From original #15 tee** up to basket to the right, in front of log wall.
15. 243' - **From temp #16 tee** played on Saturday. Walk up to and left along the log wall to a rubber mat tee aside the big tree at the end. Basket is across the slope into the brush/trees straight off the end of the tee.
16. 420' – Par 4 – From old tee set at lakeside down the hill. Stay left of mando tree off the tee. There is an additional mando-left at the last tree in the tree line at far end along the lake. From there it's a dogleg right over the dam to a basket sitting on a concrete access riser slightly down the other side. Canal is OB. Next tee is at the bottom of the slope.
17. 215' – From temp tee up to basket near the top and the bridge. Next tee across the bridge and bear right to a dirt tee in the corner.
18. 303' – From the corner tee, a tight fairway runs up the packed dirt path to a basket along the left edge. Canal OB.
19. 369' - Same as Saturday. Road and beyond OB. Right of line along brush OB.
